

Blue Lagoon UV-C Spa

In the Blue Lagoon UV-C Spa, UV-C radiation with a wavelength of 253.7 nm is generated, which thus produces a bactericidal action. The Blue Lagoon UV-C Spa provides clean, fresh and clear water in an efficient and environmentally friendly manner. The water is fed through the UV-C machine by a pump. The UV-C radiation from the lamp neutralises bacteria, viruses and other primitive organisms and prevents them from reproducing. In addition, the stainless-steel interior reflects the UV-C radiation, thereby increasing the efficiency by up to 35%. With the Blue Lagoon UV-C Spa your water will be efficiently and safely disinfected, providing you with excellent water quality.

Advantages of the Blue Lagoon UV-C Spa:

- Provides fresh, clean and clear water
- Efficiently and safely disinfects water
- UV-C demolish bonded chlorine
- Protects your pool against pathogenic organisms
- Keeps the formation of mould, bacteria and algae under control
- Eminently suitable for above-ground pools, Jacuzzis and whirlpools up to 10,000 L
- Can reduce the use of chlorine and other chemicals by 80%
- Prevents chlorine smell and irritation of skin and eyes (red eyes)
- Better for the environment than traditional methods
- Up to 35% more UV-C produced by reflection

- 316L stainless-steel housing
- Straightforward installation and maintenance
- 2-year warranty on production defects
- Earthed

Technical specifications

Lamp TUV PL-S 11W/2P	11 Watt
UV-C (W)	3,4 Watt
UV-C (%) after 5.000 hour	85%
Pool capacity (L.)	10.000 L
Max. flow	8.000 l/h
Max. pressure	3 bar
Connection	Ø63mm
Length device	45cm
